PROJECTS

Joe parcel app-

At Briwnet Web participated in building a delivery app for parcels and other goods. It is developed using flutter language and firebase. I took part in building the frontend system that the user interface and also on generating the PHP backend to learn the system.

Luxe Bnb-

I was involved in developing the Lux Bnb which is a BnB booking app. Its main purpose was to help those traveling across the country to book online reservations. I took part on the flutter frontend to promote the user interface the PHP backend mostly on Mpesa integration part.

Portfolio-

I designed portfolios for individuals. There is a portfolio for a singer Baby Jay. I generated the html, CSS, JS based portfolio. It helps promote once career online.

Websites-

I also took part on designing websites example ecommerce websites, school website at the company. Most of the websites were generated using HTML, CSS frontend for the user interface and PHP integration on the backend.

Graphics Design-

I also took part on graphics design example brand identity, poster designs for the company marketing. Most of the designs were generated using Canva. This helps promoting brand identity through graphics over the social media platform increasing consumer awareness.

Soft Skills

- Strong analytical and problem-solving abilities
- Effective communication and teamwork
- Creativity and attention to detail
- Time management and adaptability
- Excellent in graphics designs and brand identity
